member of the State Committee, and for that reason could not be made its Chairman. Besides that, there can be no change, for the services of Chairman Murphy are too valuable to the party to be lost. We cannot spare him. He is beyond all question the very best man in the State for the position."

Mr. Sheehan places no credance in the statesment that Mr. Murphy desires to resign because of his duties as l'nited States Senator being likely to detain him in Washington during the coming campaign. He says the Senator will not be so busy but that he will find time to look after the State Committee, and furthermore that he is too good a party man to step out when his party demands that he should continue at the head of the State organization.

Mr. Sheehan has been unwell for a few days, but is feeling better to-day. He intends spending most of his time here at present, looking after his business affairs. He will visit the World's Fair the latter part of this month.

Interests of the country will give their universal approval. It will ishow that a steu has been taken in the right discretion, and that is the first means of restoring confidence."

By confining the work of Congress to this single issue-that of repealing the state of the single issue-that of repealing to the subject were opened up at the present session, and efforts were made to bring in a substitute measure.

President Wright, of the Park National Hank, said: President Cleveland's recommendation is a very good beginning and should meet with approval everywhere. It is better to go slowly and-do one thing at a time.

"I would suggest that if the President should declare that the industries of the country would not be disturbed it would contribute greatly to the restablishment of public confidence."

I believe these things are principally chargeable to Congressional legislation touching the purchase and coinage of silver by the general Government.
